Application notes

Application Note : March 2012

Market involved : Materials Handling

Product : PH18CNP...

Customer : --

Subject : Smart mounting of the sensors

CUSTOMER ISSUE :

When mounting M18 sensors, they always stick out from the mounting, a smarter design has been asked for. If it is easy and quick to be mounted too, it would be perfect.

OUR SOLUTION :

The PH18CN .. sensors come with a new mounting bracket, the APH18-MB1, that allows not only a quick mounting but even a nice smooth design.

Axial and radial solutions are available.

ACHIEVED BENEFITS :

- Objects do not hit the sensors as often and the conveyor is much easier to be cleaned.
