

**FOR IMMEDIATE RELEASE:**

***Push Buttons,  
Switches, Buzzers  
and LED Pilot Lights***

*September 11, 2008 - Buffalo Grove, IL* - Carlo Gavazzi has launched a new range of push buttons, selector switches, and pilot lights. The comprehensive new line is competitively priced, and allows complete flexibility and customization, for a perfect fit at an exceptional price!

Push buttons are available in 22mm and 30mm hole sizes, in a wide variety of illuminated and non-illuminated colors. Options include flush, extended, and mushroom heads. Selector switches are available in short and long handle versions, with seven different switch action configurations, with additional keyed selector switch options. Emergency stop mushroom buttons are available in 40mm and 60mm diameters. Snap action or slow action contact blocks can be stacked up to three deep, for a total of up to six contacts operated from a single push button or selector switch.

The new line of pilot lights feature high-efficiency, bright LEDs in five different colors, five different lens options, and eight different supply voltage options. Also included is a dual color (red and green) LED, which saves valuable panel space! Buzzers and flashing buzzers are also available, in eight different supply voltage options.

All of the new switches carry are cUL approved, RoHS and CE marked, your assurance of a high quality and safe product. They are available from Carlo Gavazzi's North American network of sales offices and distributors or from their website at [www.GavazziOnline.com](http://www.GavazziOnline.com).
