

# Safety Light Curtain Type SC2 Presence Control Series

CARLO GAVAZZI

- Integrated light curtain for presence control
- Up to 19m operating distance
- Controlled heights ranging from 300 to 1500 mm
- New sturdy profile and rotating brackets
- Reset/Text + Automatic Restart
- Ideal for Industrial Applications, such as:
  - Automatic machines
  - Machines for packaging, material handling and storing
  - Weaving machines, wood-working machines and ceramic working machines
  - Automatic and semi-automatic assembly lines
  - Automatic warehouses

## Product Description

The new SC2 range of hand resolution (90mm) safety light curtains offers improved response times, among the lowest in the market, allowing the installation of the safety

light curtains nearer to the dangerous area. Better than competition response times combined with new sturdy and more functional compact body (32x37mm profile), make the

new SC2 range one of the best performing safety light curtains for industrial applications. Also the quicker installation, thanks to new rotating fixing brackets, eases alignment in the harshest

conditions, which together with full compatibility with the former SB range makes the new SC range a natural industrial automation evolution and choice.
