**Control**

**Fieldbus**

## Application notes

**Application Note : October 2013**

**Market involved : Agriculture**

**Product : CA30CLN12M...**

**Customer : OEM and specialized distributors**

**Subject : Food detection in a silo**

### CUSTOMER ISSUE :

A sensor capable of detecting an "empty" level in a silo containing feed for my feeding system for poultry.

### OUR SOLUTION :

Our CA30CLN12M sensor has been used for this purpose for several years .

The new Multi-voltage version makes it easily adaptable to the available power supply.

### BENEFITS :

- Selecting CA30CLN12M version with time delay, it is possible to turn the time delay to "0", so that it is not needed an additional stock.
- The new potentiometer settings simplify the procedures to set the distance and time in a faster and more accurate way.
