

FOR IMMEDIATE RELEASE:

***Extensive Range
of Heat Sinks
for Solid State Relays***

December 8, 2014 - Buffalo Grove, IL – CARLO GAVAZZI has launched an **Extensive New Range of Heat Sinks** for panel mount solid state relays to strengthen their position as a supplier of complete solid state switching solutions for a variety of applications for resistive and inductive switching/motor control.

Seventeen new heat sinks are added to an already extensive heat sink range. New types include a wide variety of sizes, different mounting methods such as DIN rail, panel and through-wall mounting, and include options for single or multiple SSR assemblies. Thermal resistance ranges from 4.0°C per watt to 0.12°C per watt. Proper heat sink selection has been improved by all new online tool and new detailed heat sink datasheets.

CARLO GAVAZZI has also developed an interactive web tool to specify the optimal heat sink based upon type and number of solid state relays, as well as panel temperature and amperage size, which can be found here: <http://www.productselection.net/heatsink/heatsinkSelector.php?LANG=UK>

With the new **Extended Range of Heat Sinks**, CARLO GAVAZZI now offers different variations to fulfill the demanding needs from numerous markets in which our solid state relays are used.

Main technical features include:

Thermal resistance range of new heat sinks: 4.0 °C/W to 0.12 °C/W

DIN rail, panel and through-the-wall mounting

Options for fan attachments

Heat sinks for single and multiple SSR assemblies

Optimized for use with RM, RS, RA, RZ and RGS Series relays

The new **Heat Sinks** are available from CARLO GAVAZZI's North American network of sales offices and distributors, or at www.GavazziOnline.com.
