

July 2024

Ref: Product Discontinuation / End of Life Notice

In the last three years, many manufacturers of electronic components have phased out old lines of microchips. This has had, and continues to have, an impact on our Legacy Dupline family of products (DuplineSafe/Industrial/Elevators), which have been in our portfolio for many years. We have undertaken extensive engineering maintenance work in the background, validating alternate components and developing new PCB boards.

However, some components are still critical and are disappearing rapidly from the market without any last possibility of purchasing. Therefore, given these premises, we have decided to undertake the following actions:

- 25 items are discontinued immediately. There are very limited critical components remaining, and we will fulfill **Last Time Buys on a first come, first served basis, until supplies are exhausted**. List prices will be increased by 50% effective **October 1, 2024**.

- 56 items will be phased out over the next three years. No changes to the list prices at this time. Periodic reviews of component availability will be conducted and phase out dates will be regularly evaluated.

Please see the next page for more details. Should you need any further info, please don't hesitate to contact us.

Sincerely,

Mauro Dresti
Product Line Manager - Controls
