

FOR IMMEDIATE RELEASE:

***Enclosed Starters
in NEMA 4
Metallic Enclosures***

November 18, 2014 - **Buffalo Grove, IL** - CARLO GAVAZZI is proud to announce the launch of their **CGP Series Enclosed Motor Starters**. The **CGP Series** are manufactured in Canada to both US and Canadian standards and are housed in a **NEMA 4 Metallic Enclosures** (NEMA 4X non-metallic enclosures are available upon request).

The **CGP Series** are available for both single and three phase motors up to 600V/600HP and feature a compact, space saving design. Available options include a broad range of control and pilot light layouts, integrated control transformer and both fused and non-fused disconnects.

Technical specifications include:

- For Motors up to 600HP / 600 VAC
- User selectable coil voltage
- Single or three phase models
- IP65/NEMA 4 Metallic (4X Metallic Stainless and Plastic on request)
- Integrated class 10 overload (class 20 available on request)
- Available with start/stop, hand/off/auto, and custom configurations
- Optional pilot light, control transformer, fused or non-fused disconnect switch
- cCSAus approved (according to CSA22.2/UL508A)

The **CGP Series Enclosed Motor Starters** are available from Carlo Gavazzi's North American network of sales offices and distributors, or at www.GavazziOnline.com.
