

Miniature Relays Series M

Type MZ 1 pole 10A

Monostable

CARLO GAVAZZI

- Miniature size
- PCB mounting
- Reinforced insulation 4 kV / 8 mm
- Switching capacity 10 A
- DC coils 1.87 to 160 VDC
- AC coils 4.8 to 264 VAC
- General purpose, industrial electronics
- Types: Standard, flux-free or sealed
- Switching AC/DC load

Product Description

Sealing

P: Standard, suitable for soldering and manual washing.
F: Flux-free, suitable for automatic soldering and partial immersion or spray washing.

H: Sealed with according to IP 67, suitable for automatic soldering and/or partial immersion or spray washing.

Ordering Key

MZ P A 100 47 10

Sealing

Version (A = Standard)

Contact code

Coil reference number

Contact rating

Version

A = 3.5 mm / Ag CdO (standard);

B = 5.0 mm / Ag CdO

C = 3.5 mm / hard gold plated

D = 3.5 mm / flash gilded

S = 3.5 mm / Ag Sn O₂

T = 5.0 mm / Ag Sn O₂

Available only on request Ag Ni

For General data, notes and special versions see page 48

Type Selection

Contact configuration	Contact rating	Contact code
1 normally open contact (SPST -NO {1-form A})	10 A	100
1 change over contact (SPDT {1-form C})	10 A	001

Coil Characteristics DC (20°C)

Coil ref. no.	Rated Voltage VDC	Winding resistance		Operating range		Must release VDC
		Ω	± %	min VDC	Max. VDC
