**Ultrasonic Diffuse, Analogue Output**

Types UA18CSD......TI

- Cylindrical M18 PBT housing
- Sensing distance: 40-800 mm
- Power supply: 10-30 VDC
- Outputs: 0-10 VDC or 4-20 mA
- Linearity error 1%
- Repeatability 1%
- Beam angle. ±7° or ±8°
- Protection: short-circuit and overvoltage
- Protection degree IP 67
- 2 m cable or M12 plug

**Product Description**

A family of diffuse ultrasonic sensors with a sensing range from 40-300 mm and 80-800 mm with a resolution as low as 3.0 mm. The sensor contains an analogue output that is either 0-10 V or 4-20 mA. This sensor is the ideal choice for distance measurement, level measurement, diameter measurement or loop control. Due to the use of microprocessor control the digital filtering makes the sensor immune to most electromagnetic interferences.

**Ordering Key**

UA18CSD08AGM1TI

**Specifications**

- Rated operating distance \((S_n)\)
  - Reference target: 1 mm metal rolled finish
    - 100 x 100 mm
    - 40-300 mm
    - 80-800 mm
- Blind zone
  - UA18CSD03... ≤ 40 mm
  - UA18CSD08... ≤ 80 mm
- Repeatability 1%
- Linear Accuracy 1%
- Beam angle
  - UA18CSD03... 7° ± 2°
  - UA18CSD08... 8° ± 2°
- Adjustment
  - Teach by wire
  - P1 (farthest setpoint)
  - P2 (nearest setpoint)
- Resolution 3 mm
- Temperature drift 0.1%/°C @ -20° to +60°C

- Temperature compensation Yes
- Hysteresis (H) Min. 1%
- Rated operational voltage \((U_o)\)
  - 10 to 30 VDC (ripple included)
- Ripple \((U_{rup})\) ≤ 5%
- No-load supply current \((I_o)\) 35 mA @ \(U_o\) max
- Protection analogue output Short-circuit and overvoltage
- Output analogue output
  - AG.. types 4 to 20 mA
  - AK.. types 0 to 10 VDC
- Load
  - 4 to 20 mA
  - 0 to 10 VDC
  - max. 500 Ω
  - min. 3 kΩ
- Carrier frequency 300 kHz
- Response time analogue output ≤ 400 mS

Programming set-up

Teach-in by wire adjustment options

Two Teach-in adjustment options are available:

In the following, “Activate Teach” means:
Connect the white wire to GND (Blue wire)

1) Window Teach-in Option (adjustment of two points: P1 and P2)

Teach-in of set point P1:
- Place the target at the selected far distance P1 - the green Echo LED is ON
- “Activate Teach” shortly
- Setpoint P1 has been stored and the sensor is still in teach mode
- The orange LED will continue flashing rapidly with a frequency of 2 Hz until setpoint P2 has been learned

Teach-in of set point P2:
- Place the target at the selected close distance P2 - the green Echo LED is still ON
- “Activate Teach” shortly
- The green LED switch OFF and the orange LED will flash 5 times with a frequency of 2,5 Hz
- Setpoint P2 has been stored.
- The sensor is in normal mode and the green and yellow LEDs are steady.

2) Target adjustment on P1 only (Minimum P2 distance)

Teach-in of set point P1:
- Place the target at the selected far distance P1 - the green Echo LED is ON
- “Activate Teach” shortly
- Setpoint P1 has been stored and the sensor is still in teach mode
- The orange LED will continue flashing rapidly with a frequency of 2 Hz until setpoint P2 has been learned
- Without moving the target
- “Activate Teach” shortly
- The green LED switches OFF and the orange LED will flash 5 times with a frequency of 2,5 Hz
- Setpoint P2 has been stored at the minimum distance
- The sensor is in normal mode and the green and yellow LEDs are steady
Programming set-up (cont.)

Configuration of the slope of the analogue output
The analogue version’s default setting is positive slope.

Change configuration from positive to negative slope:
• “Activate Teach” for more than 6 seconds until the orange LED flashes at a high rate/10 times per second.
• Deactivate Teach: The orange LED flashes 5 times, and the output stage is changed.

Analogue

Installation Hints

To avoid interference from inductive voltage/current peaks, separate the prox. switch power cables from any other power cables, e.g. motor, contactor or solenoid cables

Relief of cable strain
Correct
The cable should not be pulled
Incorrect

Protection of the sensing face
A proximity switch should not serve as mechanical stop

Switch mounted on mobile carrier

Delivery Contents

• Ultrasonic sensor: UA18CSD....
• Installation instruction
• Mounting:
  2 x M18 nuts
  2 x rubber washers
• Packaging: Carton box 35 x 107 x 173 mm
