PRODUCT OF THE WEEK

SCTL55 SERIES IO-LINK SMART CONFIGURATOR

WIRELESS AND PORTABLE IO-LINK SMART CONFIGURATOR PROGRAMS MOST IO-LINK SENSORS

CARLO GAVAZZI

PRODUCT DESCRIPTION

The SCTL55 Series IO-Link Smart Configurator provides a means to configure most IO-Link sensors with a wireless device that replaces the need to program via a USB IO-Link Master connected to a PC or via a network connected master device. The only thing required is the IO-Link Smart Configurator.

The device is portable and can be used anywhere, such as on the plant floor or in the office. It's battery powered and equipped with Wi-Fi for IODD files download. Hence there's no need for power or a laptop. It is truly a user friendly, wireless solution.

For more detailed specifications on the SCTL55 IO-Link Smart Configurator, please see the product brochure or video below:
